# Driver Responsibilities

## GENERAL REQUIREMENTS

### DOS

- ✓ Report to site office / weighbridge upon arrival on site
- ✓ Wear the required PPE, safety boots and vest at all times
- ✓ Obey all speed limits and signs while on each site
- ✓ Follow all instructions given by site staff
- ✓ Use wheel wash when directed
- ✓ Ensure all foreign objects are removed from dual rear wheels prior to exiting the site
- ✓ Watch out for all pedestrians, other moving vehicles and plant particularly when reversing
- ✓ Obey tipping area directions at all times
- ✓ Watch out for uneven ground when positioning your vehicle
- ✓ Ensure your vehicle is stable and level before discharging load
- ✓ Ensure adequate distance between vehicles when discharging loads
- ✓ Obey 5m exclusion zone between all vehicles
- ✓ Immediately report all incidents/accidents to site staff
- ✓ Use all vehicle equipment properly
- ✓ Be patient and follow rules
- ✓ Seat belts are to be worn at all times whilst on site

### DON'TS

- ✗ Don't allow any crew member other than the driver out of the vehicle
- ✗ Don't bring children or animals onto the site
- ✗ Don't deviate from designated haul roads
- ✗ Don't overtake other vehicles and plant on haul roads
- ✗ Don't un-tarp or unlatch the rear of your vehicle before arrival at the designated tipping area
- ✗ Don't sort through waste
- ✗ Don't stand or walk under an unpropped body or tailgate
- ✗ Don't walk behind vehicles
- ✗ Don't climb on the vehicle to un-tarp the load
- ✗ Don't travel with the vehicle body raised
- ✗ Don't tip both trays at once
- ✗ Don't smoke anywhere on site other than in designated areas

## TIPPING PROCEDURE

- Uncover Load if applicable
- Always stay within the 1m "Pedestrian Zone" of your vehicle
- Obey 5m exclusion zone between all vehicles
- Do not climb on vehicles
- Ensure no person/plant/equipment is in the immediate vicinity of your truck while reversing
- Be aware of surface soft spots. Ensure your area is firm enough for the safe tipping of the load
- Open and firmly secure the tail gate
- Reverse to the tip location
- Tip/Discharge the load
- Engage Hazard lights when out of the vehicle
- Clean up and securely lock the tail gate.
- Leave the site by following "Exit" signage
